

# FABIAN AND CLAUDE WALTER GALERIE

## ANGELA LYN IN THE BLUE

Angela Lyn and Fabian & Claude Walter Galerie step forward to engage with their audience in an innovative approach to the function of a gallery exhibition. Within the evocative presence of her new series of paintings *in the blue*, reflecting on the uncertainty of our time, the artist transforms the gallery into a gathering place where participants are invited to take an active role in response to the exhibition theme.

## HIM AND HER

Performance

PETR NEDBAL

ANJA LEBER

A performance created in response to Angela Lyn's current exhibition *in the blue*. Petr Nedbal and Anja Leber engage as man and woman - exploring physical human language in a time increasingly dominated by technology. Their dialogue reflects our innate connection to the earth and the uncertainty that emerges when this is threatened.

Petr Nedbal was born 1992 in the Czech Republic. He attended the conservatory Duncan Center (CZ) and Jose Limon Institute in New York City before completing an arts degree at ArtEZ University of the Arts (NL).

Anja Leber was born 1991 in St. Gallen (CH). She studied theatre, dance and sports science in Bern. They currently collaborate in ORA dance art collective founded by Anja Leber and Milena Baiutti, integrating dance with other art forms to expand its visibility within different aspects of life and society.
